For Distinguished Service

Simplicity, efficiency and neatness
 are characteristic of Slip-Grip.

It is on to stay in a moment and
 off with a gentle pull.

There are no hooks or sharp points
 to injure the collar—just two spring
 tension fingers that grip the edge
 of the fabric without musing it.

Slip-Grip maintains all day the well-
 groomed appearance which your
 soft collar has in the morning.

Built in one piece, Slip-Grip will
 last a life time. It is reliable,
 strong and good looking.

Men who give thought to their personal
 appearance include Slip-Grip in their
 wardrobe.

On sale at clothiers, haberdashers,
 department stores, jewelers and drug
 stores. Fifty cents up.
